Gomeh Power Backup Systems (K) Ltd.

About us

Gomeh , established in 1995, has acquired extensive experience in the field of uninterruptible power supply (UPS) systems.

Gomeh has a unique reputation in its field and is known for reliability and for fast, quality reaction.

Gomeh provides complete and reliable technical solutions, with rapid response times for on-site service, attractive prices and everything necessary for high-quality command and control systems.

Gomeh as maintaining ISO 9000 standards certification.

Gomeh is with medical certification from the Standards Institution of Israel.

Gomeh has been developing the GQS brand name for medical devices, computer systems UPS, from a single computer through three-phase, up to 300 kVA systems.

**** GQS systems are specifically designed for highly sensitive electronic equipment used at fuel depots, in industrial factories, for programmable logic controllers (PLC), for medical equipment, for work stations, personal computers and Big Data Centers servers - with all of their various operating systems - and for both small and large server rooms. And GQS provides a high-quality solution for complex communications arrays.***

In the medical field: Until 2 years ago , for a period of about three years Gomeh supplied UPS systems to the **Philips Medical Systems** company for installation in Philips CT rooms worldwide. Nearly 3,000 units have been installed thus far.

Service

Since its establishment, the Company has made immediate and reliable service its primary and uncompromising goal.

The Company maintains a statewide service array that reacts swiftly and professionally to each call, 24 hours a day, 7 days a week, throughout the year, within 4-8 hours(in Israel).

The Company's staff of Gomeh was trained at factories in Europe, and has extensive knowledge and experience in the field of UPS service and maintenance.

The service efficiency stems not only from staff professionalism, but also their high level of reliability, and the uniqueness of the products marketed by the Company.

These products are meticulously examined before being entered into the market and sent to the customer, and installed at the site of the end user.

It is this reliability that allows Gomeh to provide more (some time) years warranty for its products – much longer than the norml.

We would be most pleased to see you among our customers, enjoying high quality products accompanied by dedicated, generous, and reliable service!
